ABOUT THE BOYS & GIRLS CLUB OF VALDOSTA

Mission: To inspire and enable all young people to realize their full potential as moral, responsible, caring and productive citizens.

Boys and Girls Club Code:

I believe in God and the right to worship according to my own faith and religion

I believe in fair play, honesty and sportsmanship

I believe in my Boys and Girls Club, which stands for these things

The Boys & Girls Club of Valdosta was founded on January 22, 1944. Since that time the Club has touched the lives of thousands of young people in Valdosta and the surrounding communities. In 1956 the Club organized Little League Baseball and added a swimming pool. The Club membership grew rapidly and in 1961 additional property was purchased and the Girls Club moved into separate quarters. Over the years the Club has developed facilities and programs that meet the needs of our growing community.

In 1960 the Club obtained permission from the City of Valdosta to develop a baseball field at Sunset Park and later in Remerton. By the late 1970's the Club needed to expand once again. In 1979 ground breaking ceremonies were held at the 24 acre site now known at Lake Laurie Youth Sports Complex. Two additional facilities were added in Brooks County in 2003 to expand the outreach of the Club even further.

The purpose of the Boys and Girls Club of Valdosta is to promote the social, educational, health, leadership and character development of boys and girls during critical period of their growth. Club provides:

- *A safe place to learn and grow – The Positive Place for Kids*
- *Ongoing relationship with caring, adult professionals*
- *Life-enhancing programs and character development experiences*
- *Hope and opportunity.*

As a staff member of the Boys & Girls Clubs of Valdosta, Inc., you are an important member of the Clubs' team, which includes the Board of Directors, administrators and volunteers who are dedicated to achieving excellence in program development and implementation. Your employment experience will be a positive one as you become familiar with the Clubs' policies and the role you will plan in our shared "Commitment to Quality."

BOYS & GIRLS CLUB OF VALDOSTA, INC. 21ST CCLC

I. PERSONNEL POLICIES

A. EQUAL EMPLOYMENT POLICY

The Club has consistently operated with a policy of equal treatment for all persons without regard to age, race, color, sex, religion, national origin, disability or veteran's status. We base our decisions on the principle of equal employment opportunity. This policy of Equal Employment Opportunity applies to all aspects of employment, including advertising, recruiting, interviewing, testing, training, transfer, compensation, promotion, termination, layoff, recall, employee benefits, social and recreational programs, and all other terms and conditions of employment. If you have questions or concerns regarding this policy they should be addressed to the Personnel Committee or Chair of the Board of Directors.

B. RECRUITMENT POLICY

Recruitment and Enrollment of Students

Membership ages range from Kindergarteners through 19 years old (attending High School). Registration for Reames and Waller Units can be done at the site.

1. Recruitment for the program is done in a number of ways. At the beginning of each school year, day teachers at city schools are asked to submit recommendations of students whom they feel could benefit from the academic reinforcement of the afterschool program. This includes students with special needs (who are recommended by a teacher and/or school administrator, and/or a parent request is made; see Special Needs Policy for further information). Also included in the recruitment process are students enrolled in private schools within Lowndes County. Private school administrators are contacted by letter and their parents and students are given the opportunity for further consultation on the 21st CCLC services that are provided. It is then determined by the school and IMPACT/Fourcore staff as to whether those students can be served by this program.
2. Students who have been involved in IMPACT/Fourcore in past years are also offered slots so that their progress can be tracked throughout the years of the initiative and beyond. Applications are then sent to parents or guardians with a specific deadline for returning.
3. In some cases, parents or guardians contact the B & G Club or school staff members directly if they are interested in their child attending the program. These students are also considered for enrollment and sent an application. If there are no slots available, they are placed on the waiting list. The Site Directors also tries to include siblings of students who are enrolled in the program, if they meet the enrollment criteria.
4. Publicity is provided by the School/Community Relations Director, and school system staff members are informed about the program and the recommendation

process. Information is also published in the local newspaper, on the B & G Club and school system website.

5. The IMPACT/Fourcore program does not prohibit students from attending if they have an IEP or are determined to have special needs. Referrals may be made by the student's day teacher, or Special Education department staff member. It will be determined by a student's regular day teacher, the afterschool teacher, and the Site Director as to whether the student can be served by the afterschool program. If it is determined that the program may benefit a student with special needs, contact with parents will be made and a plan will be set up to indicate how the student can best be served. Accommodations during out-of-school hours will include pull-out (individual or small group) tutoring, homework assistance, and test preparation.
6. ESOL/ELL/LEP students may also be served by the IMPACT/Fourcore program after school and during the summer. Appropriate accommodations are made for these students, including pull-out (individual or small group) tutoring, homework assistance, and test preparation.

There will be a maximum enrollment of 210 at the Reames Center and 300 at the Waller Unit. A waiting list will be started once the maximum has been reached at the site.

Student Attendance

Research shows that strong member attendance is a critical component in ensuring a student's overall success in school as well as in afterschool program environments. Regular attendance is necessary for creating great and varying experiences at the Boys & Girls Club of Valdosta. Therefore, **we ask that each student commit to attending at least three days per week** whenever possible. The front desk clerk or unit director will make a follow-up call to the parents of a child who has missed eight consecutive days of the program. If attendance is not consistent and the Site Director has determined that the absences are unexcused, a warning letter will be sent to the child's parent/guardian. If the unexplained or unexcused absences continue after that, a withdrawal letter will be sent to the parent/guardian and the child's slot will be filled from the waiting list.

F. HIRING POLICY

1. Responsibility for Hiring Staff

The Corporate Board of Directors (The Board), with the advice of its Personnel Committee, hires, discharges, and fixes the compensation of the Chief Professional Officer, whose qualifications and experience are such that he/she can administer the total program and activities of the Boys & Girls Clubs of Valdosta, Inc. IMPACT 21ST CCLC within the policies. Other full-time professional staff members, program workers, maintenance and clerical personnel are employed and discharged by the Chief Professional Officer with the advice and consent of the Personnel Committee. The 21st CCLC Program Director and Club C.P.O., with guidance from the Georgia Department of Education, determine the compensation of all employees.

2. Selection of Personnel

Applications for employment and/or vacant positions will be received and reviewed by the Chief Professional Officer. In filling a vacancy, the Organization will give consideration to promotion of qualified employees within the Club and will notify all employees of the vacancy. Recruitment is in accordance with generally accepted ethical practices and, when appropriate, utilizes Boys & Girls Club of Valdosta of America Placement Services and other recognized organizations, agencies and professional groups. The Club will provide to each applicant a copy of the job description and other pertinent facts, which may have a direct bearing on the position. In the course of evaluating the candidate, references, including those from previous employers, will be obtained and filed in the candidate's file. All information obtained during the recruitment process shall be kept confidential. Letters of appointment, as well as letters regarding change in assignment, are to be acknowledged by the employee in writing, with such acknowledgements being filed in the individual's personnel record.

3. Qualifications for Employment

The hiring, assignment and promotion of employees shall be based on qualifications.

4. Physical Examination

New employees may be required to complete a health statement and submit to a pre-employment physical examination after an offer of employment has been made.

5. Background Checks

Background checks are obtained prior to employment. All candidates for 21st CCLC employment and volunteer positions must sign a permission form allowing the Boys & Girls Club of Valdosta to conduct a background investigation. The Boys & Girls Club of Valdosta reserves the right to perform a thorough background investigation on any of its volunteers annually or at any time deemed necessary, and take action based upon information obtained. If a potential employee has a felony conviction, they cannot be hired by 21st CCLC. If a potential employee has a criminal background but the offense is not a felony, the Program Director, C.P.O., and Site Director will determine whether or not the employee can be hired based on the infraction. This will be done on a case-by-case basis.

6. Nepotism

The Boys & Girls Club of Valdosta does not prohibit the employment of more than one family member working at the same facility or in the same program. However, one family member may not directly supervise another family member.

PRE-EMPLOYMENT DRUG TESTING—Valdosta Boys and Girls Club Policy

The Valdosta Boys and Girls Club considers pre-employment drug testing a necessary step in hiring qualified employees. Any applicant who tests positive for non-prescribed drugs will not be offered employment. This also applies to all 21st CCLC employees.

E. DRUG AND ALCOHOL POLICY

Increased use of alcohol and drugs in the work place has become an extremely serious problem. Such use results in poor productivity for the Club and may be harmful to the health and welfare of employees. The Club is committed to reducing problems connected with alcohol and drug use in the work place. Therefore, the following policy is enforced and applies to all employees of the Club.

1. BASIC POLICY

Alcohol or drug use will not be tolerated at any time on Club property nor while operating Club equipment, including operating vehicles on and off Club property. This includes consumption, possession, use, purchase, sale, or being under the influence of alcohol or drugs. The penalty for violation of this policy is discharge for the first offense.

2. Methods of Enforcement

Various screening, testing, and security measures are used as methods of enforcement, including random sampling. Other methods may include searches, use of trained dogs, surveillance, questioning, blood testing and urinalysis. Employees who are found to have alcohol or drugs in their systems, in excess of minimum legal limits, will be considered to be under the influence of alcohol or drugs, and will be discharged. Any employee who refuses testing will be discharged.

Other than random testing screens, individual employees will usually only be searched, tested, or screened under the following conditions:

1. Where the Club has reason to believe that the employee is engaging in alcohol or drug induced behavior. Examples include, but are not limited to, slurred speech, staggering, disruptive conduct, absenteeism, unsatisfactory work performance, accidents, near miss accidents, and unexplained behavioral changes.

and/or

Where the behavior described in (1) is observed by a supervisor.

Or

2. Where the employee is involved in an accident or occurrence which results in an injury or circumstances which could have resulted in an accident or injury.

or

At hiring time, when all new hires will be required to pass a pre-employment drug screening test as a condition of employment. In addition to testing, searching, or screening of individuals, the Club may require that all employees, as a group, submit to testing and security measures. The time for testing will not be announced in advance, and all employees will be required to participate. Refusal to participate in testing may result in immediate discharge.

Professional Development Plan and Evaluation Plan **2018-19**

- **Purpose**

The purpose of the Professional Development Plan is to guide the IMPACT/ Fourcore/Project Vision Initiative 21st CCLC Afterschool Program in developing professional development opportunities leading to enriched and improved learning experiences for students. It is hoped that these opportunities for staff members will not only aid in the achievement of benchmarks as set forth in the grant initiative, but will also prove to be timely and worthwhile for all students involved in the program.

- **Goals**

1. To serve students, grades K-12, at the LMS, Waller, and Reames Centers.
2. To provide a safe, secure environment for these students.
3. To provide at least two hours daily of academic training (Reading, English/Language Arts, Math, Science, Social Studies) to these students.
4. To provide at least 45 minutes daily of Enrichment/Recreation to these students.
5. To increase students' knowledge of basic Math, Reading/Language Arts/English, Social Studies, and Science skills and comprehension in accordance with the curriculum and methods used during regular school hours, and to aid with homework and studying for tests.
6. To achieve benchmark progress as listed in grant initiative.
7. To strive for improvement in students' attendance, behavior, and attitudes by better preparing them for the day classroom.
8. To better prepare afterschool teachers, youth development professionals, and administrative staff members the best methods available to reinforce the skills the students require to achieve the benchmarks in standardized test scores, promotion rates, and grade point averages.

Assessment

1. Surveys are distributed to each staff member at the beginning of the program each year. They are asked to make suggestions on subjects to cover during staff development sessions, and are also asked how this knowledge can be applied to the afterschool program as well as the day school. They are also asked about how better communication between day school teachers and afterschool teachers can be obtained.
2. Staff members are also surveyed as to methods of engaging families in the afterschool process and in support at home for their children.
3. Teachers are sent Progress Tracking Forms twice a year (or as needed) to report specific student progress or needs to the Site Director. They are also given reporting methods for lack of progress, decline, lack of participation, etc.
4. Communication between regular day teachers and afterschool teachers is imperative. Day teachers are asked to make recommendations at the beginning of each school year of students whom they feel will benefit from the program. Throughout the year, communication between the Site Directors, day teachers, and afterschool teachers is maintained to ensure that students are getting help in the right areas in the afterschool hours.
5. **EVALUATION**: The Site Director and the Program Director are actively observing each classroom and assessing teaching methods, student response, etc. Informal observation forms are utilized for this purpose. This results in formal staff evaluations at the mid-year point (January) and at the end of the school year (May.) The Site Director receives mid-year and end-of-the-year evaluations from the Program Director; The Program Director receives an annual evaluation from the Chief Professional Officer. (Attached in Appendix)
6. Students, parents, and staff members are surveyed by the outside evaluator at the end of the year as to their experience with the afterschool program, and suggestions on how to improve for the coming year. The evaluator also conducts interviews with students, family members, school administrators, and members of the Advisory Team near the end of the school year.
7. Student progress can be measured by standardized test scores, promotion rates, and grade point averages, and also by attendance, behavior, and discipline records.

Plans for Coming Year

1. Staff Orientation-introduce staff to 21st CCLC policies, goals, objectives, timesheets, and other pertinent information. Inform members of 2016-17 Evaluation Report. Conduct Staff Survey to determine what Staff Development Programs are suggested.

2. Conferences and Workshops: Mandatory Training conducted by GaDOE for grantees, July 2018; Region Brown Bag Sessions by GaDOE (TBA); National Youth-at-Risk Conference, Savannah, March 2019; and 21st CCLC Summer Institute 2019 (TBD).

EMERGENCY PREPAREDNESS PLAN—SECTION I

Weapons, Violent Incidents/Threats, Intruder, Lockdown

Prompt attention, immediate and thorough investigation, and accountability will be used in responding to reports that pose a threat at the IMPACT site during the afterschool or summer program. Any report that a person has a weapon of any type will be immediately reported to the police. This also applies to:

- Students, intruders, or staff members who are making violent threats or demonstrating violent behavior
- Students, intruders, or staff members who have weapons of any type

1. Warning

- a. Call 911 for law enforcement assistance.
Provide any available assistance regarding the suspect(s) description, location, and type(s) of weapons, if any. (See Code Levels 1, 2, 3)

2. Response

- a. Site Director/Person-in-Charge should notify staff by use of codes for lockdown or evacuation. The Site Director/Person-in-Charge will determine the next steps for staff and students.
- b. Staff members should not attempt to confront or disarm anyone in possession of a weapon. This is the responsibility of law enforcement.

Codes:

Level 1: Basically Normal Everyday Procedures

- Lock all exterior doors, lock and monitor main access door
- Monitor movement of students between rooms
- Students and staff remain in building
- Movement limited
- Block visibility into classrooms from exterior windows and doors

Level 2: Continue Instruction

- Instructors continue current activity
- Close and lock all exterior doors and individual room doors
- No students allowed out of rooms until “all clear” is given

- Open exterior window blinds or curtains to allow exterior visibility into classroom
- Staff and students do not leave room or current location

Level 3: Full Lockdown—Stop Instruction

- Close and lock classroom doors immediately
- No students allowed out of classroom until “all clear” given
- All persons move out of sight in locked room (next to interior walls, under desks and tables)
- Open exterior blinds or curtains
- Remain silent
- Staff members get into lockdown position also
(Example: Threat is inside. Threatening person—possible weapon/active shooter)

EMERGENCY PREPAREDNESS PLAN—SECTION II

Fire or Bomb Threat

A fire may originate within a building or threaten from the outside. Internal fires can result from a variety of causes and precautions must be administered to contain the fire and evacuate students and staff from the building as soon as possible. It is important to have drills during the afterschool hours as students may be in a different location during these hours and should know the evacuation procedures for that location.

1. Warning

- Every building is required to have a fire alarm system. This alarm sound should be distinctive from other warning signals.
- Upon receiving word of an internal or external fire, the person-in-charge should alert office personnel to sound the fire alarm. This will begin the evacuation process.

2. Response

- Emergency personnel should be notified as soon as possible.
- Students and staff should begin orderly but swift evacuation by the pre-determined routes. Staff members should take their roll books with them.
- Classes should go to their designated place and teachers should take roll immediately to ensure all students are present.
- Site Director or person-in-charge remains with emergency personnel. If students cannot return to the building, procedures will begin for calling parents to inform them of the situation. Buses should also be called to take children home. All students must be signed out if picked up by family members. All students riding buses should be listed and accounted for by staff members.
- When it is safe for students to return to the building, the Site Director or person-in-charge should announce the pre-determined verbal signal for students and staff to return.
- If the fire is in surrounding woods or fields, and threatening the building, students should be evacuated to a safe distance from the impending fire. This may include crossing the road.

Bomb or Bomb Threat Response

- Immediately contact the School Police and/or Local Police.
- If evacuation is ordered, an announcement will be made indicating all personnel and

students move to the predetermined assembly point at least 1,000 feet away from the building using predetermined routes and exits. (**NOTE:** Site Director or person-in-charge must re-direct classes if the predetermined routes pass near the alleged location of the bomb or device). Assembly point: ARTS Center.

- c. Law enforcement will ensure that all personnel and students have left the building.
- d. Use classroom telephones (where available), bullhorns or adult runners to communicate and confirm that the building has been cleared. **DO NOT USE WALKIE-TALKIES OR CELLULAR PHONES** since radio transmissions may cause detonation of electric blasting caps in certain types of bombs. **HOWEVER**, walkie-talkies may be used outside for outside-to-outside communication.
- e. Staff members should account for all students by checking roll in the assembly area(s).
- f. All personnel and students must remain in the assembly area until the “all clear” signal is sent.

(Building layout and escape plans are at each school)

EMERGENCY PREPAREDNESS PLAN—SECTION III

Tornado

In Georgia, there are two tornado seasons. The primary season occurs March through May. The secondary season occurs from October through December; however, any month during the year can see tornadoes in this area of the country. Tornadoes are the most violent of all atmospheric phenomena. In the afterschool hours, it is important that students are drilled on tornado procedures because they may be in different locations than they are during the school day.

1. Warning

- a. The notification will be made by the National Weather Service. If threatening weather is approaching, the Site Director/Person-in-Charge will monitor the situation closely. If a “Tornado Warning” is issued, this means that a tornado has been sighted in the area and protective measures should be taken immediately. Emergency personnel should be contacted at this time.
- b. If a warning is issued, the person-in-charge should sound the alarm (pre-determined signal) and instruct staff to proceed to pre-determined areas of the building. These areas should be interior rooms, hallways, lowest floors away from glass.
- c. Students should take personal belongings which may provide extra protection (large books, backpacks, coats to hold over head and shoulders.) Staff members should take roll books and ensure that each student is present at the location.
- d. When students get to location, they should sit down on the floor, head down with hands locked at the back of the neck.
- e. Staff members should supervise the students but should also take safety precautions themselves.
- f. If the warning is lifted without incident, the person-in-charge should give an announced signal that students and staff may proceed back to their classrooms.

A minimum of two safety drills are required each semester during the afterschool hours.

CHILD ABUSE / NEGLECT REPORTING POLICY

All Club employees and volunteers are required by law to report all suspected cases of child abuse and neglect. Child abuse and neglect is any act of omission or commission that endangers or impairs a child's physical or emotional health and development. The act of inflicting abuse (physical, sexual, verbal, or other), or allowing abuse to result, rather than the degree of abuse, is the determinant for intervention.

-All staff and volunteers shall receive ongoing training on the following:

- a. Child abuse/neglect indicators as it relates to family, staff, volunteers or other club members.
- b. Appropriate discipline and supervision of members.
- c. Maintaining proper behavior when alone with a member.

INTERVENTION

The following guideline must be used when an employee or volunteer has **reasonable cause** to suspect that a child who is under the age of eighteen and known to them in their professional capacity has been **abused** – physically or sexually or **neglected** or is in danger of being abused and neglected and that a caregiver, or person in a position of trust and authority over them, committed the harm or should have taken steps to protect the child from harm:

- a. Inform supervisor, who will inform the Executive Director immediately.
- b. The Executive Director, or his appointee, will interview the child only to the extent necessary to confirm the suspicion.
- c. The Department of Family & Children Services (DFCS) must be contacted immediately to report the incident. The staff member or volunteer with the most direct knowledge of the suspected abuse should be the one to contact DFCS.
 1. Under no circumstances shall any person in charge of the facility or his/her designated agent to whom such notification has been made, exercise any control, restraint modification or other change in the report or the forwarding of such report to DFCS.
 2. Reporters of suspected child abuse and neglect will not be discharged for making a report unless it is proven that a false report was knowingly made.

All reports to DFCS shall be documented including but not limited to, date, time, person spoken to and outcome of conversation.

The following guidelines are applicable as it relates to interviewing a child:

- a. The interview must be kept strictly confidential except for reporting requirements.
- b. A private, quiet room must be used in the presence of another adult.
- c. Begin with comfortable information such as where the child lives, whether they have siblings or what school the child attends.
- d. Share with the child any concerns about visible marks, the child's health and his/her safety.
- e. Do not go into detail or extended questioning beyond an assessment. Ask only questions which relate to specific concerns and the child's condition.
 1. Use open-ended questions... "Could you tell me more?"

Similarly, sexual harassment involves:

1. Making, as a condition of employment, unwelcome sexual advances or requests for sexual favors, or other verbal or physical conduct of a sexual nature;
2. Making submission to or rejection of such conduct the basis for employment decisions; or
3. Creating an intimidating, offensive, or hostile work environment by such conduct.

Any employee who feels that he or she has suffered any form of harassment or retaliation must immediately report the alleged conduct to his or her supervisor or manager so that a confidential investigation of the complaint can be undertaken. Alternatively, the employee may report the alleged conduct to the Chief Professional Officer and/or Chairman of the Board of Directors. Further, any employee who observes conduct by another employee which he or she believes to be harassing, retaliatory, or discriminatory must report such conduct as outlined above. All complaints of harassment will be treated confidentially to the extent possible and will be investigated promptly and thoroughly.

Any individual found by the Club to have harassed another employee will be subject to appropriate disciplinary action ranging from a written warning in his or her file up to and including termination. Retaliation or discrimination against an employee for making a good faith report or complaint about harassment is prohibited and will result in disciplinary action up to and including termination. If an employee believes he or she is being harassed or retaliated against for having made good faith complaint of discrimination or harassment, the employee must report such retaliation to the Club immediately.

We trust that employees will continue to act in a responsible and professional manner to establish a pleasant working environment free of discrimination and harassment.

Complaint Resolution Procedure

Misunderstandings or conflicts can arise in any organization. It has always been the Club's desire to assure effective working relations by resolving matters of this type as quickly as possible. Our "Open Door Policy" which extends through the Chief Executive Officer, has been established to resolve most employee concerns before they escalate into problems. However, should it become necessary to formally bring a situation to the attention of the Club, please follow the procedures listed below:

Step One

Discussion of the problem with your Supervisor is expected as a first step.

Step Two

If the problem is not resolved after discussing it with your supervisor, or if it is felt that a discussion with the supervisor is inappropriate, prepare a signed written statement and file with the Chief Executive Officer.

Step Three

If after completing the above steps you are not satisfied, you may pursue the issue further. You may request a review by a resolution committee. The committee will be chaired by the Chief Executive Officer or his designated representative, and will consist of the Personnel Supervisor and a different supervisor. The committee, after an investigation of the facts, will make a decision. Decisions of the committee are final in all cases not involving termination.

**Fourcore/IMPACT/Project Vision Initiatives of
BOYS AND GIRLS CLUB, VALDOSTA
21ST CENTURY COMMUNITY LEARNING CENTERS
Communication Plan
2018-2019**

The Fourcore/IMPACT/Project Vision Initiatives of the 21st Century Community Learning Centers Program (21st CCLC) acknowledges the need for open and frequent communication with those affected by the program. This includes the Boys and Girls Club Board of Directors, Valdosta City Board of Education and Lowndes County Board of Education(co-applicants), School Superintendents, 21st CCLC Advisory Council, community residents, school administrators, day school staff members, afterschool staff members, parents and family members of students (including those with limited English proficiency), and of course, students. Methods of communication with each of these groups are listed below.

1. Valdosta City Schools and Lowndes County Boards of Education

- Program Director and other staff members report regularly to the respective BOE's regarding Annual Evaluation results, policies and procedures, staffing changes, and student progress. This is accomplished by reports on the 21st CCLC Program which are shared at each meeting of the Boys and Girls Club. The Site Coordinator for the Reames and Waller Units also makes periodic visits (as deemed necessary) to ensure regular communication between day teachers, school principals, and 21st CCLC staff.

2. Boys and Girls Club/Chief Executive Officer

- Management Team meetings are held with Program Director, Site Director, Evaluator, and B & G Club Chief Operations Officer (COO). These are to inform the COO of progress and recommendations for improvement. The COO also serves on the 21st CCLC Advisory Council, which meets quarterly. The Program Director, Site Coordinator, and COO meet weekly to discuss the program. There is also a weekly staff meeting in which the Site Coordinator communicates updates and program goals and objectives. Regular e-mails are also part of the communication process. The 21st CCLC staff correspond regularly on transportation issues, student needs and progress, and other topics. The COO provides periodic reports at Valdosta City Schools and Lowndes County Board Meetings.

3. 21st CCLC Advisory Council

- The Advisory Council is comprised of the following:
 - Program Director and Site Director
 - School Superintendent
 - School System Curriculum Directors for K-5, 6-12
 - Title I Director
 - Teaching and Learning Counselors
 - School Administrators
 - Transportation Department representatives
 - Valdosta Early College Academy
 - Community representatives from businesses, law enforcement, Chamber of Commerce, Wiregrass Technical College, Retired Educators, Turner Center for the Arts
 - Parents/Family members from each school represented

The team meets at least twice a year, and at least one meeting per year is held when the program is in session and students are present. They are informed of Annual Evaluation results, policies and procedures, and student progress toward Goals and Objectives. Committees on Mentoring and Sustainability are formed within the team.

5. Community Residents

- The most effective way for communicating with local residents is through the local media. The Valdosta Daily Times, the local newspaper, is provided with announcements concerning program recruitment, meetings, and activities. Annual Evaluation results are also published in the newspaper each year.
- The School Messenger system is a phone message system that provides parents with information on program cancellation (due to weather) and announcements about upcoming meetings.
- Articles, photos, and announcements are also made in the school systems' published monthly newsletter which is mailed to local residents, parents, and distributed to local businesses, and the monthly e-newsletter, which is e-mailed to staff members at the end of each month. The school systems' websites are also effective in sharing announcements and program news.
- The Boys and Girls Club 21ST CCLC Program also has a page on the BGCV website and Facebook page.

6. School Administrators

- The Program Director and Site Director communicate most effectively with school administrators through e-mail. This is efficient, fast, and provides a record of correspondence. Administrators are kept informed on meeting dates, times, and locations; field trips; program activities; cancellation of program; student behavior issues; student progress; usage of buildings and resources; and staffing changes.
- The Site Coordinator frequently visits each participating school and communicates with school staff regarding the program and student needs and progress.
- School administrators are included in the 21st CCLC Advisory Council and the Boys and Girls Club Board of Directors.

7. Day School Staff Members

- E-mail has proven to be an effective communication tool for sharing information with day school staff. They are kept informed as to meetings, student issues and progress, and staffing changes.
- Day teachers are asked to complete Student Needs Assessments mid-year on 21st CCLC program students. The needs assessments are shared with the after-school teachers.
- The school newsletter, e-newsletter, and website are also methods of communicating program information to day teachers.
- After-school teachers and the Site Director also communicate with day teachers regarding specific students and their needs.

8. 21st CCLC Staff

- Staff members are kept informed most often by e-mails from the Program Director and/or Site Coordinator. This includes information on program scheduling, parent meetings, and student issues.
- Staff Orientation is held before the program begins each year to inform staff members about the Staff Handbook, policies, procedures, criminal background checks, emergency plan, and Annual Evaluation results. The program Goals and Objectives are also presented here.
- Staff meetings and staff development training sessions are held as needed throughout the school year.
- A Staff Orientation for the Summer Program is held near the end of May each year.

9. Parents and Family Members of Students; Students

- Methods of communication include the following (as previously mentioned): Boys and Girls Club website, school system website, newsletters, local newspaper, local radio station, School Messenger, flyers sent with students, mailings, phone calls, and e-mails.

Annual Evaluation results and the program Goals and Objectives are presented at these meetings.
- Regular 21st CCLC Family Events are held at each site to share information on program activities, upcoming testing, and other issues.
- Currently there are no LEP students and/or families within the Fourcore/IMPACT Initiative Program; however, if this should change, the communication procedures are as follows: Parents with limited English proficiency are kept informed by translation of flyers and letters sent home; translation of the Parent/Student Handbook; translators available for meetings; and translators for phone calls. Handouts at Parent Meetings are translated if necessary. There is currently a Boys and Girls Club staff member who is fluent in Spanish. Project Vision does have LEP students and there is always an interpreter present for these students. All materials for the program are translated by these interpreters before they are sent home with the students.
- Students are kept informed of staffing and policy changes, upcoming events, club rules, etc. by the Site Director and 21st CCLC staff. There are also student representatives on the 21st CCLC Advisory Council.
